

AOCC2018 Abstract Results

ID	Results	Publication Number	Poster Round	Title	Name of First Author	Country/Area
884355	Best abstract	BA 01	/	The Baseline Features of Patients with Newly Diagnosed Moderate to Severe Ulcerative Colitis in Korea: A hospital-based inception cohort (the MOSAIK cohort)	Shin Ju Oh	Korea
880192	Best abstract	BA 02	/	Clinical characteristics and current management of Crohn's disease in China: A multicenter prospective and observational registry study	Yue Li	China
885327	Best abstract	BA 03	/	Fecal microbiota transplantation for maintenance of clinical remission in patients with active Ulcerative Colitis: a randomised control trial	Ramit Mahajan	India
875836	Best abstract	BA 04	/	Determination of fecal calprotectin cut-off values for clinical, endoscopic and histologic remission in Japanese patients with ulcerative colitis.	Jun Urushikubo	Japan
902511	Best abstract	BA 05	/	The Microbial Composition in Ulcerative Colitis Is Effectively Improved by Combination of Fecal Microbial Transplantation and Multiple Antibiotic Therapy	Dai Ishikawa	Japan
885274	Best abstract	BA 06	/	Magnetization transfer imaging adds information to conventional MRIs to differentiate inflammatory and fibrotic intestinal strictures in Crohn's disease	zhuangnian Fang	China
884465	Best abstract	BA 07	/	Ozanimod, an Oral S1P Receptor Modulator, Is Effective and Well-Tolerated in the Long-term Treatment of Moderate to Severe Ulcerative Colitis	G. D'Haens	Netherlands
883975	Best abstract	BA 08	/	Effectiveness of dose optimization by pre-genotyping NUDT 15 R139C on reducing thiopurine-induced leucopenia in Chinese patients with Crohn's disease: a randomized controlled trial	Kang Chao	China
907279	Best abstract	BA 09	/	Incidence and survival of gastrointestinal cancer in patients with inflammatory bowel disease : A nationwide population-based study in Korea	Jae Jun Park	Korea
866128	Best abstract	BA 10	/	Accurate Diagnosis of Endoscopic Mucosal Healing in Ulcerative colitis by Deep Learning and Machine Learning	Shan-Quan Zhan	Chinese Taipei
884453	Free paper presentation	FP 01	/	Ozanimod Induces Dose-Responsive Histological Improvement with High Agreement with Clinical Remission and Endoscopic Mucosal Healing: Results from the TOUCHSTONE Study	G. D'Haens	Netherlands
883111	Free paper presentation	FP 02	/	Higher education, professional occupation and upper socio-economic status is associated with lower adherence to medications in patients with inflammatory bowel disease	Sanjeevani K Tomar	India
884722	Free paper presentation	FP 03	/	Filgotinib decreases systemic and mucosal markers of inflammation associated with endoscopic improvement in moderately to severely active Crohn's disease patients	S.-C. Wei	Chinese Taipei
884172	Free paper presentation	FP 04	/	Deficiency of PHLPP1 regulates neutrophils function during DSS induced acute colitis	Taojing Ran	China
883545	Free paper presentation	FP 05	/	CD1d modulates colonic inflammation in NOD2-/- mice by altering the microbial composition and Acetatfactor muris may be responsible.	Namyoun Paik	Korea
884224	Free paper presentation	FP 06	/	Exosomes from adipose-derived stem cells promotes VEGF-C dependent lymphangiogenesis by regulating miRNA-132/TGF-β	Xiaolei Wang	China
905358	Free paper presentation	FP 07	/	The air-enema image of ultra-low dose CT colonography can be an alternative diagnostic technique for the assessment of mucosal healing in the patients with ulcerative colitis.	Ken Takeuchi	Japan
836305	Free paper presentation	FP 08	/	Quality of life in IBD patients and disease-related perception of caregivers: A multicenter investigation in mainland China	Chenwen Cai	China
848376	Free paper presentation	FP 09	/	Combined anticytokine therapy and local mesenchymal stem cells therapy in patients with Crohn's disease	Oleg Knyazev	Russia
883931	Poster oral	PO 001	1	GMA vs. Infliximab in Moderate to Severe Active Ulcerative Colitis: A Retrospective Observational Study	Wei Gao	China
840250	Poster oral	PO 002	1	Food exclusion based on IgG antibodies alleviates symptoms in ulcerative colitis: a prospective study	Gang Liu	China
884244	Poster oral	PO 003	1	VEGF-C mediated enhancement of lymphatic drainage reduces intestinal inflammation by regulating IL-9/IL-17 balance and improving gut microbiota in experimental chronic colitis	Xiaolei Wang	China
884242	Poster oral	PO 004	1	TL1A exacerbated chronic experimental colitis through activating dendritic cells	Fei Han	China
884466	Poster oral	PO 005	1	Risk factors of permanent stoma for Crohn's Disease with perianal lesion	Takashi Yokoo	Japan

AOCC2018 Abstract Results

ID	Results	Publication Number	Poster Round	Title	Name of First Author	Country/Area
884716	Poster oral	PO 006	1	Comparison of fecal calprotectin and fecal immunochemical test for prediction of disease severity in Crohn's disease	Dongwon Lee	Korea
884605	Poster oral	PO 007	1	Abundance of Fecal Butyrate-producing Bacteria and Inflammatory Markers in Ulcerative Colitis Patients: A Comparative Study	Eun Sun Kim	Korea
884677	Poster oral	PO 008	1	Real time phenomenon on Nucleus & Mitochondria of colon cancer cell by Irreversible Electroporation detected by probe based Multiphoton Microscopy	Han jo Jeon	Korea
857956	Poster oral	PO 009	1	Risk factors and outcome of clostridium difficile infections in inflammatory bowel disease	Wei-Chen Lin	Chinese Taipei
884052	Poster oral	PO 010	2	Correlation of intestinal mucosal healing and tight junction protein expressions in ulcerative colitis patients	Yue Tan	China
884245	Poster oral	PO 011	2	TL1A aggravated chronic experimental colitis through activating macrophages	Fei Han	China
885077	Poster oral	PO 012	2	The increased MICA expression in intestinal epithelial cells resulting in activated mucosal immunity in ulcerative colitis	Liuqing Ge	China
884182	Poster oral	PO 013	2	Complications in inflammatory bowel disease: a retrospective study from 1985 to 2014	Meng Jin	China
884459	Poster oral	PO 014	2	Mortality in Japanese patients with ulcerative colitis over two decades: A single-center retrospective cohort	Takashi Taida	Japan
884177	Poster oral	PO 015	2	Development of self-screening tool for perianal disease in patients with Crohn's disease: a pilot study	Eun Soo Kim	Korea
884468	Poster oral	PO 016	2	Efficacy of anti-tumor necrosis factor alpha therapy in intestinal Behçet's disease	Jihye Park	Korea
884745	Poster oral	PO 017	2	Health related behavior in pediatric inflammatory bowel disease: Korea National Health and Nutrition Examination Survey (KNHANES)	Sowon Park	Korea
885075	Poster oral	PO 018	2	Increased Expression of Prothymosin-alpha in Mucosal Tissue of Patients with Active Ulcerative Colitis	Chiao-Hsiung Chuang	Chinese Taipei
884617	Poster oral	PO 019	3	Fusobacterium nucleatum Membrane Derived Vesicles Promote Intestinal Barrier Dysfunction in Dextran Sulfate Sodium-Induced Colitis	Liping Liang	China
884420	Poster oral	PO 020	3	Resolvin D1 mitigates inflammatory response in DSS-induced colitis mice by inhibiting NLRP3 inflammasome activation	chen fang	China
884413	Poster oral	PO 021	3	Efficacy and safety of adalimumab in Chinese patients with moderately to severely active Crohn's disease	Baili Chen	China
885175	Poster oral	PO 022	3	Endoscopic features and clinical risk factors of refractory Crohn's disease with upper gastrointestinal involvement	Yubei Gu	China
885104	Poster oral	PO 023	3	Efficacy and Safety of Thalidomide in Adults with Refractory Crohn's Disease to Maintain Clinical Remission: A Retrospective Cohort Study	Lang Lin	China
884190	Poster oral	PO 024	3	Golimumab for pediatric-onset ulcerative colitis; A single center experience.	Kazuhide Tokita	Japan
884464	Poster oral	PO 025	3	The metformin inhibits MDSC and M2 macrophage via AMPK-induced inhibition of HMG-CoA reductase in tumor microenvironment.	TAE IL KIM	Korea
883200	Poster oral	PO 027	3	Addition of computed tomography chest increases the diagnosis rate in patients with suspected intestinal tuberculosis	Deepak Madhu	India
887923	Poster oral	PO 028	4	The expressions of hsa_circ_0023397 and miR-106b in the intestinal mucosal tissues of Crohn's disease and the significance	hong Chen	China
884678	Poster oral	PO 029	4	Neuropeptide S Receptor 1 Gene Polymorphisms are Associated with Susceptibility to Inflammatory Bowel Disease in Chinese Han population	xiaobing Wang	China
886904	Poster oral	PO 030	4	Fecal HSF2 Concentration Maybe Used As An Evaluation Index For Predicting The Mucosal Healing Of UC	Junkun Niu	China

AOCC2018 Abstract Results

ID	Results	Publication Number	Poster Round	Title	Name of First Author	Country/Area
884833	Poster oral	PO 031	4	Perianal Crohn's disease in China: The characteristics and adverse clinical outcomes	Shanshan Huang	China
884741	Poster oral	PO 032	4	Upper Gastrointestinal lesions in Crohn's Disease : a cross-sectional cohort study	miao li	China
883947	Poster oral	PO 033	4	Safety and effectiveness of granulocyte and monocyte adsorptive apheresis for 90 patients with corticosteroids naïve ulcerative colitis patients: A multicenter cohort study	Yoh ISHIGURO	Japan
884201	Poster oral	PO 034	4	Transmural healing evaluated by magnetic resonance enterography in pediatric Crohn's disease patients receiving maintenance treatment with biologics	Ben Kang	Korea
884252	Poster oral	PO 035	4	Fecal calprotectin is capable of predicting mucosal healing in pediatric-onset Crohn's disease patients under sustained clinical remission with biologics	Ben Kang	Korea
885234	Poster oral	PO 036	4	Maintenance with Fecal Microbiota Transplantation enhances deep remission in patients with Ulcerative Colitis in clinical remission - a randomized control trial	Vandana Midha	India
885336	Poster oral	PO 037	5	Surgery management of complex internal fistulas in Crohn's disease	Wei Liu	China
888444	Poster oral	PO 038	5	The study of adipose-derived mesenchymal stem cells on treatment of Inflammatory Bowel Disease	Ying Zhang	China
885312	Poster oral	PO 039	5	Comparison of three magnetization transfer ratio indices for better assessment of bowel wall fibrosis in Crohn's disease	Jixin Meng	China
901739	Poster oral	PO 040	5	Exosomal transfer of intestinal epithelial cells-derived miR31 confers Graphene Oxide- induced colon colitis	Siliang Liu	China
883377	Poster oral	PO 041	5	The incidence of venous thromboembolism with inflammatory bowel disease in Japanese inpatients: A prospective cohort study.	Katsuyoshi Ando	Japan
882520	Poster oral	PO 042	5	Comparison of Long-Term Outcomes of Cyclosporine A and Infliximab Treatment for Steroid-refractory Acute Severe Ulcerative Colitis	Eun Mi Song	Korea
883021	Poster oral	PO 043	5	Vitamin D status is associated with clinical factors and affects the risk of intestinal resection in Crohn's disease	Nam Seok Ham	Korea
883921	Poster oral	PO 044	5	Effect of disease duration and location on clinical remission in Crohn's disease patients treated with filgotinib: post-hoc analysis	Geert D'Haens	Netherlands
848375	Poster oral	PO 045	5	Comparative frequency of Clostridial infection in patients with ulcerative colitis receiving mesenchymal stromal cells and biological preparations.	Anna Kagramanova	Russia
890953	Poster oral	PO 046	6	Analysis of NOD2/CARD15 Gene P268S, JW1 and N852S Polymorphisms and Crohn's disease in Chinese Zhuang Patients	Xiaoping Lv	China
885230	Poster oral	PO 047	6	Clinical analysis of factors related to recurrence of ulcerative colitis	Xiaoying Feng	China
885476	Poster oral	PO 048	6	Intravoxel Incoherent Motion Diffusion-Weighted Magnetic Resonance Imaging with Perfusion-related Fraction as a Novel Biomarker for Detecting and Grading Intestinal Fibrosis in Crohn's Disease	Mengchen Zhang	China
850118	Poster oral	PO 049	6	miR-219 inhibits intestinal inflammation through modulating Th17 cell differentiation	Jun Yao	China
883120	Poster oral	PO 050	6	"Anti-mesenteric cutback end-to-side isoperistaltic anastomosis", a new reconstructive procedure after intestinal resection for Crohn's disease, reduced surgical recurrence.	Kazuhiro Watanabe	Japan
882228	Poster oral	PO 051	6	Development and Validation of an Algorithm to Accurately Identify Inflammatory Bowel Disease Patients: A Nationwide population-based study	Jun Ki Min	Korea
881981	Poster oral	PO 052	6	Phenotypic and Genetic Features of Mucosa-associated E. coli in Korean Inflammatory Bowel Disease Patients	Jae Gon Lee	Korea
848380	Poster oral	PO 053	6	Combination therapy of mesenchymal stromal cells and immunosuppressive therapy not affect the clinical course luminal Crohn's disease.	Oleg Knyazev	Russia
906775	Poster oral	PO 054	6	Real-world data on the efficacy and safety of vedolizumab therapy in inflammatory bowel disease in an Asian cohort	Aaron Tau-Ming Gan	Singapore

AOCC2018 Abstract Results

ID	Results	Publication Number	Poster Round	Title	Name of First Author	Country/Area
848379	Poster oral	PO 055	7	Frequency of extraintestinal manifestations in patients with Inflammatory Bowel Diseases in the Moscow-City	Anna Kagramanova	Russia
905558	Poster oral	PO 056	7	The association between phenotype and genotype in 30 Chinese pediatric patients suffering very early onset inflammatory bowel disease	Yuan Xiao	China
853057	Poster oral	PO 057	7	Dietary N-3 Polyunsaturated Fatty Acid Ameliorates Crohn's Disease Rats by Modulating PPAR-Y/NFAT Expressions	Jiayin Yao	China
854977	Poster oral	PO 058	7	Umbilical cord blood mononuclear cells therapy induces clinical remission of steroid-dependent or -resistant ulcerative colitis patients	xueliang jiang	China
876171	Poster oral	PO 059	7	Advanced Oxidation Protein Products induce intestinal epithelial cell G1 phase arrest via a CD36/RAGE-JNK-p27kip1 mediated pathway	Jie Shi	China
881960	Poster oral	PO 060	7	Endoscopic features and genetic background of inflammatory bowel disease complicated with Takayasu arteritis	Shintaro Akiyama	Japan
882651	Poster oral	PO 061	7	Safety and effectiveness of retreatment with granulocyte and monocyte adsorptive apheresis in 131 patients with inflammatory bowel disease	Tomoyoshi Shibuya	Japan
880478	Poster oral	PO 062	7	The efficacy of Tonsil -derived Mesenchymal stem cells conditioned medium in chronic colitis model	Yang Hee Joo	Korea
881927	Poster oral	PO 063	7	Interleukin-6 induced Lipocalin 2 promotes tumorigenesis from colitis to colorectal cancer	Sang Wook Kim	Korea
876001	Poster oral	PO 064	8	The role of pro-inflammatory monocyte/macrophage in depression/anxiety aggravated Inflammatory Bowel Disease	Li Zhao	China
868753	Poster oral	PO 065	8	The role of mTOR signaling pathway in the pathogenesis of experimental colonic fibrosis in mice	Pingping Xu	China
852972	Poster oral	PO 066	8	Creeping fat in ileo-colonic Crohn's disease correlates with disease activity, inflammatory markers and outcome using energy spectrum computed tomography	Qi Feng	China
855659	Poster oral	PO 067	8	Biofeedback in patients with ileoanal pouch dysfunction: a specialist centre experience	Heyson Chan	China
882239	Poster oral	PO 068	8	The Change of the Mucosal Flora on Experimental colitis Mice and the Regulation Function of Mica	Bibi Zhang	China
872796	Poster oral	PO 069	8	Remission induction in corticosteroid naïve children and adolescents with active ulcerative colitis by adsorptive leucocytapheresis after failure of first-line medications	Tomotaka Tanaka	Japan
881911	Poster oral	PO 070	8	Efficacy and related issues of cytapheeresis in elderly patients with ulcerative colitis	Yoko Yokoyama	Japan
873609	Poster oral	PO 071	8	Long-term clinical outcome of isolated terminal ileal lesions	Young Mo Kang	Korea
878882	Poster oral	PO 072	8	The effects and adherence of Asacol® comparing 2.4g once daily with 800mg three times or 1200mg twice daily for maintain therapy in the ulcerative colitis: prospective multicenter randomized study	Soo-Kyung Park	Korea
873952	Poster oral	PO 073	9	HPMSCs Cotransplanted with Chitosan-IGF-1C Hydrogel Ameliorate TNBS-Induced Colitis by Secreting PGE2	yuanyuan liu	China
882209	Poster oral	PO 074	9	SLC26A3 (DRA) prevents TNF-alpha-induced barrier dysfunction and dextran sulfate sodium-induced acute colitis	Qin Yu	China
873938	Poster oral	PO 075	9	Topical application of human umbilical cord-derived mesenchymal stem cells gel matrix accelerate the closure of enterocutaneous fistula on mouse model	huixing hou	China
882253	Poster oral	PO 076	9	Loss of aryl hydrocarbon receptor aggravates intestinal barrier dysfunction in colitis by regulating the myosin light chain kinase signaling pathway	Haiqin Ma	China
882236	Poster oral	PO 077	9	The Change of the Th17/Treg on Experimental colitis Mice and the Research about Protective Effect of Mica	Bibi Zhang	China
905649	Poster oral	PO 078	9	Endoscopic findings to predict therapeutic efficacy of anti-TNF agents on patients with ulcerative colitis	Yusuke Honzawa	Japan
